wtf is wrong with you

fuck you

fucking psycho

you did steal my wallet and phone

YOUR parents were the ones who initiated contact with my family

stop blaming me for the consequences of your actions. Get a grip. IF you dont like the consequences of what you have done, then perhaps you should rethink about the way you have acted in the past and see yourself from the perspective of anyone aside from yourself. And consider how you can act in the future to avoid the same things.

Bitch, you have NEVER, the whole time I've known you, ever taken your own advice and tried to see anything from another perspective. YOU LEFT YOUR WALLET IN MY CAR. After trashing it and stealing everything you could. The phone was mine and I didnt want to give it to you if you were going to be a cunt. I went out of my way to help you and you fucked me. Fuck you.
Does the new guy have a place or is he a tent dweller? It doesn't matter as long as he gives you drugs, right? Get your shit together, enough to be a mother to your son.

Not that you bothered to ask about him or anything, but your son is crawling now. Irresponsible selfish bitch. It's fucked up I have to take all this burden. You're an asshole. And call your fucking mom.
